How to create NREN Federation on Jagger Dashboard

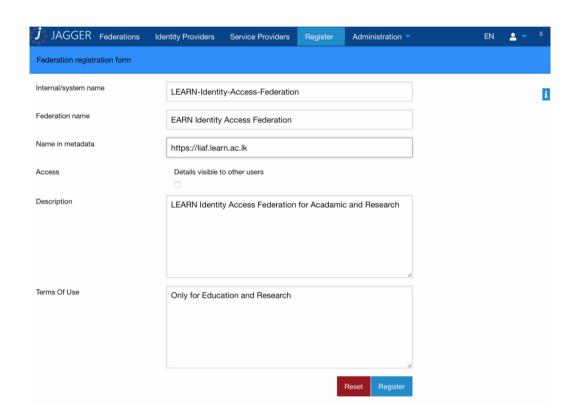

1. Login as admin

(if you can not login as admin, do a clean installation on a fresh Ubuntu server 18.04 by carefully following the given instructions)

2. Follow the menu path

Register → **Federation**

and fill the form as follows

Click on Register

Then you should see

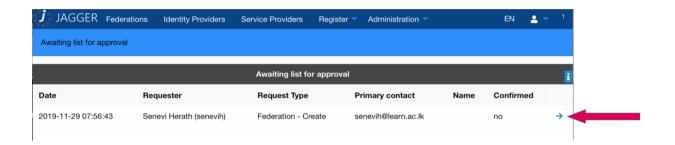

(if you got errors in RED, remove or change incorrect characters from the fields)

Now you have to ACCEPT the newly created federation

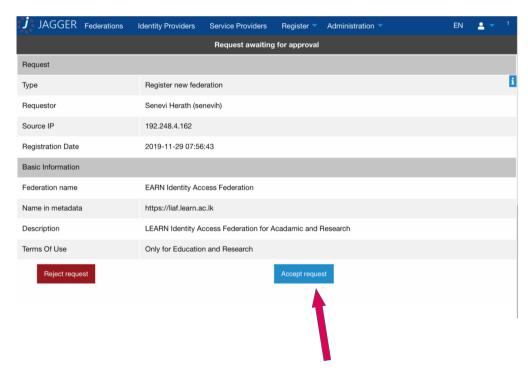

Click on 1

Click on the little **arrow** at the end of the line

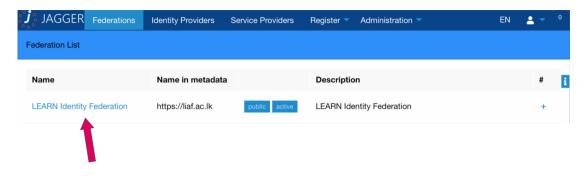

and click on Accept Request

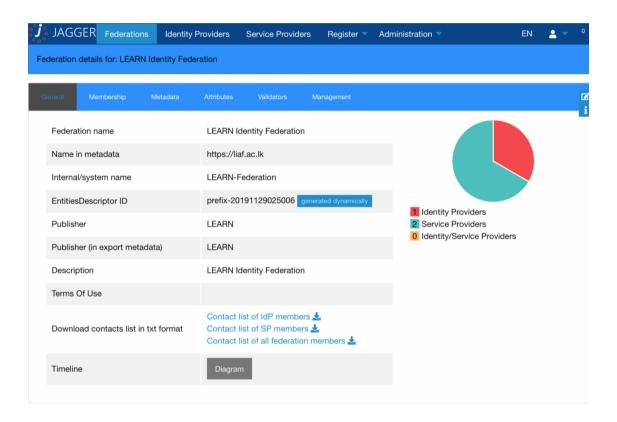

You will see

3. click on **Federation** menu Item (first menu item) to see your federation detail

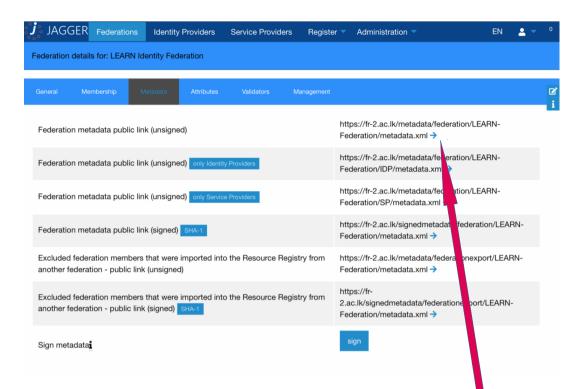

Click on your federation to view more detail. You will see

Click on each **Tabs** to see what are in them

Metadata Tab

Your Federation Metadata URL (unsigned)

Note your metadata URL, It has to be used in your IDPs, EDS and SPs.

Registering an Institutional IDPs on NREN Federation Dashboard

You should have **running IDP** and copy of its **Metadata** (in XML format – get a copy of browser page source)

If you want to get your member institute to register their IDP, create a new user from

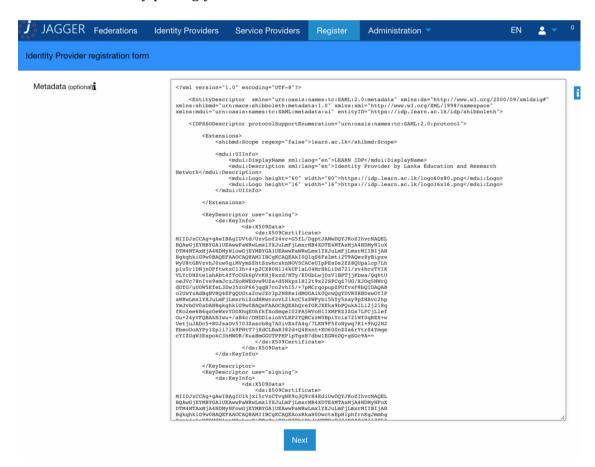

Administration \rightarrow Users \rightarrow Add user

and send the credentials to the IDP admin of the your member institution

1. Login as admin/user and follow the menu path

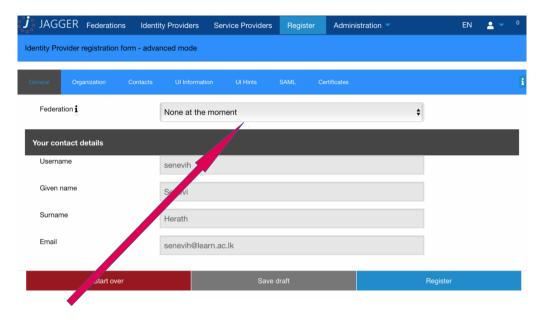

Register → **Identity Provider**

and fill the form by pasting your IDP metadata

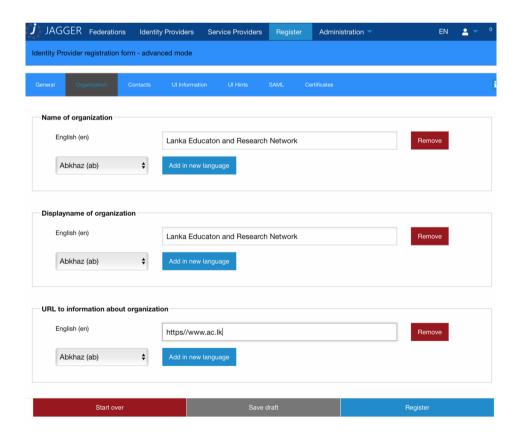

Click on Next

2. You should see

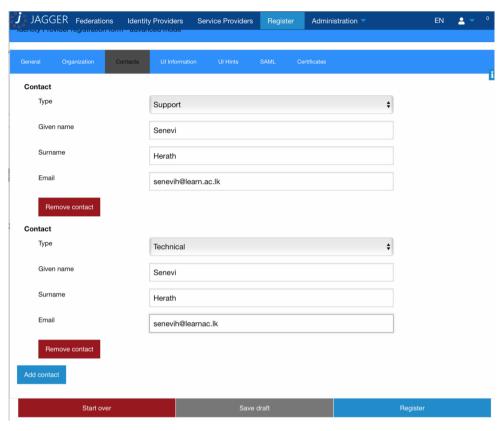

Select your **Federation** and fill the rest of the field with valid data

3. Click on **Organization** Tab and fill detail about your **Campus** (click on **Add in new language** to get input box)

4. Click on **Contact** Tab and add contact detail for **Support, Technical, Administrative** and etc (click on **Add contact** to add a contract)

- 5. Click on **UI information** Tab fill the details
- 6. Finally Click on **Register**
- 7. **Federation Admin** has to login and Click on **1** on the upper right corner to review and accept the new IDP
